

Dear Patients,

At Magnolia Family Dentistry, it is our utmost responsibility and priority to keep our patients and staff safe and healthy. Your well-being is crucial, and we want to share the steps we have taken in light of the Coronavirus (COVID 19).

We are closely monitoring and following the guidelines of the US Centers of Disease Control and Prevention (CDC) as well as the American Dental Association (ADA).

While we will remain open, beginning Monday, March 16th, we will decrease the number of appointments available per day in order to limit the number of patients in our office at the same time. This will allow for continued thorough antiviral and antibacterial disinfecting of our treatment rooms and common areas between patient visits.

In order to better assist you:

- If you are experiencing any symptoms of illness (fever, cough, sore throat, or simply not feeling well); if you are elderly, have respiratory issues or any other risk factors, or if you have traveled in the last 14 days, please reschedule your appointment and leave enough time to self-quarantine before that rescheduled time.
- If/When you keep your appointment, please be on time so we can keep safe distances between all patients. If you rely on transportation services, please schedule accordingly as we reduce wait times in the office waiting room.
- Please do not bring friends or family with you to your appointment as they will not be allowed to stay in the waiting room during your treatment.

Please don't hesitate to call if you have any questions or concerns.

Wishing safety and good health to you,

Magnolia Family Dentistry
